Explanatory Note: Please see this table's User Guide for detailed explanations of the accountability terms.

* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.

Explanatory Note: Please see this table's User Guide for detailed explanations of the accountability terms.

* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.

* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.

Explanatory Note: Please see this table's User Guide for detailed explanations of the accountability terms.

* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.

Explanatory Note: Please see this table's User Guide for detailed explanations of the accountability terms.

* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.
